HAWTHORN CHRONOGRAPH

OWNER'S HANDBOOK

WELCOME TO OUR JOURNEY...

Thank you for purchasing your Melbourne Watch Company timepiece.

Since our establishment in 2013, we have strived to create timepieces of the highest quality that you as an owner can be proud of wearing.

Each MWC timepiece represents a new stage in our journey as a brand as we continue to grow – A journey that we are glad to have you on board for.

HAWTHORN CHRONOGRAPH

The Hawthorn offers a blend of dress and sports styling combined with a modern Japanese mecha-quartz chronograph movement.

The Seiko Cal. VK63 movement allows for the grab-and-go convenience and precise timekeeping of quartz as well as the feel of a mechanical chronograph (with a 5bps sweep chrono hand).

The Hawthorn also features sapphire crystal and a matching solid stainless steel bracelet.

TECHNICAL SPECIFICATIONS

Complications:	12/24 Hour Time, Chronograph
Crystal:	Flat Anti-Reflective Sapphire
Water Resistance:	50m/5ATM
Strap:	Steel Bracelet - 22mm

OPERATING INSTRUCTIONS

Your Hawthorn timepiece is fitted with the Seiko Cal. VK63 mecha-quartz chronograph movement. An overview of functionality is shown below:

- A. When partially pulled out, the crown can be rotated clockwise to quick-set the date.
- B. When fully pulled out, the crown can be rotated to adjust the time. This also places the watch into battery saving mode.
- C. The top pusher button stops and starts the chronograph timer
- D. The bottom pusher button resets the chronograph timer
- E. The central seconds hand will operate as a stop-watch seconds counter when in operation. By default, the chrono seconds hand will remain stopped at the 12 o'clock position
- F. Chrono minute totaliser
- G. 24 Hour Time

Notes:

1. The Hawthorn has a screw-down crown. To release the crown, unscrew it counter-clockwise. To re-set, apply light pressure against the crown while rotating clockwise.
2. DO NOT reset the chronograph seconds hand while the stopwatch function is running as this may cause damage to the mechanism.
3. The chronograph function can only count a maximum of 60 minutes per cycle. After this, it will stop.

WARRANTY & SUPPORT

Your 2 year warranty covers material production defects concerning the watch, strap and movement. It does not cover damage caused through misuse/ physical force, or normal wear and tear.

If you have an issue with your timepiece, please ensure you contact our customer service team prior to attempting any course of repair on your own, as doing so will render your warranty void.

To lodge a support request, please email your details along with a description of the issue to support@melbournewatch.com.au

This will create a support ticket within our helpdesk system and you will receive an automated email confirming receipt of your request, along with a case number which you can refer to during further correspondence.
