SALON EVOLUTION

INNOVATIVE DESIGNS
FOR SALON & SPA

piibbs®

PIBBS INDUSTRIES IS ONE OF THE WORLD'S LEADING MANUFACTURERS OF SALON, BEAUTY AND SPA EQUIPMENT

The Pibbs Group put down its roots in the 1950's as hairstyling and fashion became more demanding. The hairstylist had greater needs, and the Pibbs family was among those stylists. Hairdressing gave enjoyment, work and life to the Pibbs Group. After opening a number of salons, an idea began to grow.

Water Heat Booster

NEVER RUN OUT OF HOT WATER AGAIN!

Save energy, reduce water waste, and save money

The Pibbs Water Heat Boosters were developed to address the issue of losing hot water at one or all of your shampoo units while servicing clients. The Pibbs Water Heat Boosters are a smart electric tankless water heater that reliably senses the inlet water temperature. If the incoming water temperature is less than 110°F, the Pibbs water heater knows to raise the temperature. When the water from the central location reaches the desired temperature, the Pibbs Water Heat Booster turns off, saving energy and reducing water waste. No more running out of hot water, no more cold-water shampoos, no more adjusting the water temperature or water flow. Reliable and consistent hot water, when you need it most! Available in two sizes.
